LETTER REGARDING NOTIFICATION OF GROUNDWATER SAMPLING INTENT AT NSB
KINGS BAY GA
4/16/1992
ABB ENVIRONMENTAL

April 16, 1992

Mr. Jim Ussery
Unit Coordinator
Georgia Department of Natural Resources
Hazardous Waste Management Program
Environmental Protection Division
205 Butler Street, S.E.
Floyd Tower East, Suite 1154
Atlanta, Georgia 30334

Subject: Kings Bay Submarine Base

Dear Mr. Ussery:

ABB Environmental Services, Inc. (ABB-ES) has been contracted by the Department of the Navy to perform certain tasks related to the Installation Restoration Program. On behalf of the Navy, ABB-ES wishes to notify the Environmental Protection Division (EPD) of our intent to perform groundwater sampling at the Naval Submarine Base, Kings Bay, Georgia, beginning May 4, 1992. This groundwater sampling event is the second of six events associated with the approved workplan for site investigation activities at three sites as follows:

- Site 5, Army Reserve Disposal Area Towhee Trail;
- Site 11, Old Camden County Landfill; and
- Site 16, Army Reserve Disposal Area.

A total of 20 monitoring wells will be samples for Appendix IX parameters plus dioxins and furans.

The Department of Navy and ABB-ES would like to extend this offer for EPD representatives to observe sampling activities or collect referee samples during this upcoming event. Please contact me at (615) 482-9015 if EPD wishes to pursue this offer.

Sincerely,

Frank Cater, P.E.
Task Order Manager
